

## Epiroc interim report Q2

### April - June 2019 in brief

- Orders received were SEK 10,553 million (10,483), organic decline of 4%
- Revenues increased 8% to SEK 10,626 million (9,843), organic growth of 3%
- Operating profit increased 25% to SEK 2,263 million (1,810)
- Operating margin was 21.3% (18.4). Adjusted operating margin was 21.7%\*
- Basic earnings per share were SEK 1.40 (1.09)
- Operating cash flow of SEK 1,506 million (199)

### Key figures

SEK million	2019 Q2	2018** Q2	Δ	2019 Q1-Q2	2018** Q1-Q2	Δ
Orders received	10,553	10,483	1%	20,616	20,519	0%
Revenues	10,626	9,843	8%	20,411	18,076	13%

Profit for the period	1,680	1,321	27%	3,054	2,402	27%
Operating cash flow	1,506	199	657%	1,978	865	129%
Basic earnings per share, SEK	1.40	1.09	28%	2.54	1.98	28%
Diluted earnings per share, SEK	1.40	1.09		2.54	1.97	
Return on capital employed, %	30.8	29.6		30.8	29.6	
Net debt/EBITDA ratio	0.43	0.40		0.43	0.40	

\*Information on change in provision for share-based long-term incentive programs can be found on page 3.

\*\*Numbers for 2018 are not restated for IFRS 16. See pages 13-14.

## CEO comments

### Record-breaking quarter

The second quarter 2019 continued with positive development for revenues and profit. Revenues increased 8% to an all-time high at SEK 10,626 million with an organic growth of 3%. The operating profit reached a record of SEK 2,263 million, up 25% compared to the previous year. The operating margin was 21.3% and excluding change in provision for long-term incentive programs, the operating margin was 21.7%. The organic growth and our efficiency actions had positive effects on our operating profit and margin, and our flow-through improved. We also continue to have tailwind from currency. Operating cash flow improved both compared to the previous quarter and year-on-year.

### Demand expected to remain at a good level

The activity and production in the mining industry continued to be robust at a high level and our customers are investing in new equipment, even if they continue to be cautious on larger investments. The demand from the infrastructure industry was also healthy.

Orders received were record high at SEK 10,553 million, supported by acquisitions and currency. Organic order intake declined 4% compared to the strong Q2 2018. As expected, the order volumes for Epiroc's equipment remained at a similar level as in the last three quarters, but did not reach the high level of Q2 2018. The aftermarket business continued to be strong, reflecting the activity level in the market, both in mining and infrastructure. The service business had an organic order growth of 7% and Tools & Attachments had a solid order intake.

Going forward, we do not see any clear signs that the current market situation will change. Hence, we reiterate our view that the demand will remain at the current level in the near term, however noting that Q3 in general is slightly weaker than Q2.

### Actions to improve performance

We are saddened by a tragic work-related fatal accident in India. Safety is always a priority and the injury frequency rate is decreasing. To further improve, we have launched a global safety awareness initiative.

In Tools & Attachments, we continued to see positive effects from our efficiency actions. In line with our stated ambition to continuously prune our product portfolio and exit non-core areas, we have signed an agreement to divest our geotechnical consumables product line. Our supply-chain program for parts and consumables is progressing according to plan with gradual improvement of availability, transport costs and inventory levels. In the quarter, we decided to invest in a new heat treatment plant for rock drills in Örebro, Sweden, to ensure that we continue to improve rock drill quality and performance. The plant will also increase capacity and reduce costs.

### Leadership in automation and battery-electric vehicles

We have a market-leading offering in automation, connectivity and battery-electric vehicles and the customer interest in, and demand for these solutions is growing quickly. In the quarter, we launched 6<sup>th</sup> Sense. This is our new offering of solutions to enable customers to optimize processes by connecting machines, systems and people using automation, information management and system integration, and to achieve higher production at lower operating costs.

Currently we have more than 2,500 connected machines, a number that is increasing rapidly. For example, for production drill rigs, the number of connected machines have doubled in the last year. We also see that connectivity is an enabler for increased utilization. In underground drilling more than 550 of our drill rigs are equipped for complete automation of the drilling process. In surface drilling, we have the largest installed base of autonomous rotary drill rigs, and the world's first fully autonomous SmartROC D65 down-the-hole drill rig is now operating in Canada. Also, the interest in our next generation underground battery-electric vehicles continues to be strong and we received more orders for these machines in the quarter.

### First anniversary

On June 18, we celebrated our 1-year anniversary as a listed company. We recently concluded our first employee survey, which showed that our employees are engaged and view Epiroc as a great place to work. I am proud of the drive and commitment of our organization as we continue to strengthen our customer offerings and improve our efficiency, agility and resilience.

Per Lindberg  
*President and CEO*

## Orders received, revenues and profits

### Orders and revenues

### Geographic distribution of revenues

### Operating profit and margin

### Epiroc Group

SEK million	2019 Q2	2018 Q2	Δ	2019 Q1-Q2	2018 Q1-Q2	Δ
Orders received	10,553	10,483	1%	20,616	20,519	0%
Revenues	10,626	9,843	8%	20,411	18,076	13%
Operating profit	2,263	1,810	25%	4,193	3,325	26%
Operating margin, %	21.3	18.4		20.5	18.4	
Return on capital employed, 12 months, %	30.8	29.6		30.8	29.6	

### Orders received

Orders received increased 1% to SEK 10,553 million (10,483), corresponding to an organic decline of 4% year-on-year. Acquisitions and structural changes contributed positively to orders received with 3% and currency with 2%. Compared to the previous quarter, orders received increased 5%, with positive contribution from acquisitions and currency.

Geographically and compared to the previous year, orders received in local currency increased in Asia/Australia and in North America, but decreased in the other regions.

Mining customers represented 75% of orders received in the quarter.

The book to bill ratio was 99% (107).

### Revenues

Revenues increased 8% to SEK 10,626 million (9,843), corresponding to 3% organic growth. Acquisitions and structural changes contributed positively to revenues with 2% and currency with 3%.

### Sales & profit bridge

#### Epiroc Group

	Orders received	Revenues	Operating profit	Margin, %
	SEK million, Δ, %	SEK million, Δ, %	SEK million, Δ	Δ, pp
<b>Q2 2018</b>	<b>10,483</b>	<b>9,843</b>	<b>1,810</b>	<b>18.4</b>

Structure and other*	+3	+2	+139	+0.9
<b>Total</b>	<b>+1</b>	<b>+8</b>	<b>+453</b>	<b>+2.9</b>
<b>Q2 2019</b>	<b>10,553</b>	<b>10,626</b>	<b>2,263</b>	<b>21.3</b>

\*Includes operating profit/loss from acquisitions, contract manufacturing, one-time items, and change in provision for share-based long-term incentive programs. Contract manufacturing of road construction equipment was discontinued at year-end 2018.

### Profits and returns

Operating profit increased 25% to SEK 2,263 million (1,810) with positive contribution mainly from currency and organic growth. Change in provision for share-based long-term incentive programs was SEK -39 million (-77).

The operating margin increased to 21.3% (18.4), positively affected by currency and organic revenue growth, but diluted by acquisitions. Excluding change in provision for long-term incentive programs, the margin was 21.7% (19.2).

Net financial items were SEK -38 million (-44). Net interest was SEK -57 million (-38).

# Q2 2019

## Capital employed and return on capital employed\*

\*Numbers for 2018 not restated for IFRS 16.

Profit before tax was SEK 2,225 million (1,766), corresponding to a margin of 20.9% (17.9). Income tax expense amounted to SEK -545 million (-445), corresponding to an effective tax rate of 24.5% (25.2).

Profit for the period totaled SEK 1,680 million (1,321). Basic earnings per share were SEK 1.40 (1.09).

The return on capital employed during the last 12 months was 30.8% (29.6). Return on equity was 32.3% (30.8).

### Cash flow and Balance sheet

#### Operating cash flow

#### Operating cash flow

The operating cash flow improved to SEK 1,506 million (199). The main reason for the improvement is related to working capital. In Q2 2019, working capital increased by SEK 131 million. Receivables increased following strong invoicing, while inventories and payables decreased. In Q2 2018, working capital increased by SEK 1,226 following strong volume growth.

#### Acquisitions

Cash flow from acquisitions were SEK -578 million (-), see pages 20 and 24.

#### Net working capital

#### Net working capital

Net working capital was SEK 14,791 million (13,102) at the end of the period, an increase of 13%. The increase compared to last year is mainly explained by increased trade receivables and inventories following the increased volumes and a reduction of trade payables. Acquisitions and currency have also contributed to the increase. As a percentage of revenues last 12 months, the average net working capital was 33.8% (31.7).

#### Supply-chain program

The supply-chain improvement program for parts and consumables that was initiated in the first quarter 2018, with the aim to improve delivery service to customers, reduce costs, e.g. for transport, and reduce capital tied-up in inventories, continued according to plan with gradual improvements. The program, expected to run until 2021, is being rolled out in selected markets.

#### Net debt and Net debt/EBITDA\*

#### Net debt

The Group's net debt amounted to SEK 4,217 million (3,027), of which SEK 460 million (176) was attributable to post-employment benefits. The implementation of IFRS 16 has increased the net debt by SEK 2,037 million as of June 30, 2019. In the quarter, payments for the first installment of the annual dividend was made of SEK 1,260 million. The second installment will be paid in November 2019 and is recorded as a liability. The net debt/EBITDA ratio was 0.43 (0.40). The net debt/equity ratio was 21.2% (17.3).

\* Numbers for 2018 not restated for IFRS 16.

## Equipment & Service

The Equipment & Service segment provides rock drilling equipment, equipment for mechanical rock excavation, rock reinforcement, loading and haulage, ventilation systems, drilling equipment for exploration, water, oil and gas, as well as related spare parts and service for the mining and infrastructure industries.

- Organic order growth of 7% in service
- Orders received for equipment decreased 15% organically compared to the strong Q2 2018
- Operating margin increased to 25.6% (23.9), supported by currency and organic revenue growth

### Orders and revenues

### Equipment & Service

	2019	2018		2019	2018	
SEK million	Q2	Q2	Δ	Q1-Q2	Q1-Q2	Δ
Orders received	7,677	7,947	-3%	14,925	15,389	-3%
Revenues	7,702	7,325	5%	14,817	13,268	12%
Operating profit	1,970	1,747	13%	3,689	3,111	19%
Operating margin, %	25.6	23.9		24.9	23.4	

### Orders received

The orders received for Equipment & Service decreased 3% to SEK 7,677 million (7,947), corresponding to an organic decline of 4%. Currency contributed positively to orders received with 2%, while acquisitions and structural changes had a net negative impact of 1%. Compared to the previous quarter, orders received increased 6% with positive contribution from currency.

The book to bill ratio was 100% (108). The share of orders from equipment in the segment was 47% (53) and the share of service was 53% (47).

Equipment orders decreased 15% organically compared to the previous year and amounted to SEK 3,580 million (4,234). Orders for both underground and surface equipment were lower compared to last year. Geographically and compared to the previous year, orders received in local currency increased in Asia/Australia, but decreased in the other regions. A large order was won in Chile and orders for battery-electric vehicles were won in Finland and in Canada. Most of the equipment orders from mining customers continued to relate to expansion in or adjacent to existing mines rather than to replacement. Compared to Q1 2019, orders were sequentially up 4%.

The orders received for service increased 10% to SEK 4,097 million (3,713), corresponding to an organic growth of 7%. Geographically and compared to the previous year, orders received in local currency increased in all regions.

### Revenues

Revenues increased 5% to SEK 7,702 million (7,325), corresponding to an organic growth of 3%. Equipment accounted for 47% (50) of the revenues in the segment and service for 53% (50).

\*Includes orders received and revenues from acquisitions and contract manufacturing. Contract manufacturing of road construction equipment was discontinued at year-end 2018.

### Operating profit and margin

Operating profit increased 13% to SEK 1,970 million (1,747), corresponding to a margin of 25.6% (23.9). The margin was supported by currency and organic revenue growth.

### Business development

A decision to invest in a new heat treatment plant for rock drills in Örebro, Sweden, was made in the quarter. The plant, which is expected to be up and running by late 2020, will safeguard continuous improvement of rock drill quality and performance, and at the same time increase capacity and reduce costs.

### Innovations

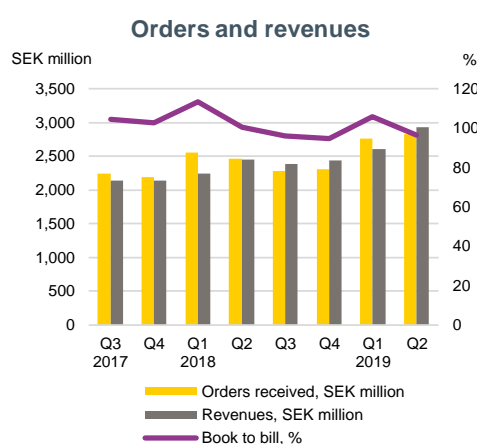

In the quarter, 6<sup>th</sup> Sense was launched. This is Epiroc's offering to optimize customers' processes by connecting machines, systems and people using automation, information management and system integration. 6<sup>th</sup> Sense brings additional value to the customers as it combines multiple solutions of digitalization and automation to boost customers' performance.

The automation package for the Simba long-hole underground drill rigs was complemented with a system that enables teleremote electric tramming of the rig. It enables the operator to move and position the drill from a remote location, which increases both productivity and safety.

## Tools & Attachments

The Tools & Attachments segment provides rock drilling tools and hydraulic attachments that are attached to machines used mainly for drilling, deconstruction and recycling as well as rock excavation. It also provides related service and spare parts and serves the mining and infrastructure industries.

- Orders received increased 14%, supported by acquisitions
- 19% revenue growth, of which 4% organic
- Operating margin increased to 14.6% (12.4)

### Tools & Attachments

	2019	2018		2019	2018	
SEK million	Q2	Q2	Δ	Q1-Q2	Q1-Q2	Δ

Operating profit	429	304	41%	800	591	35%
Operating margin, %	14.6	12.4		14.5	12.6	

### Orders received

The orders received for Tools & Attachments increased 14% to SEK 2,826 million (2,470) corresponding to an organic decline of 2%. Acquisitions contributed to the increase with 14% and currency with 2%. The order intake of rock drilling tools was impacted by optimization of the product offering and as such decreased somewhat organically. The orders received for hydraulic attachment tools increased organically compared to the previous year.

The book to bill ratio was 97% (101).

Geographically and compared to the previous year, orders received in local currency increased in all regions, with a positive contribution from acquisitions.

### Geographic distribution of revenues

- North America
- South America
- Europe
- Africa/Middle East
- Asia/Australia

### Revenues

Revenues increased 19% to SEK 2,926 million (2,452), corresponding to an organic growth of 4%. Acquisitions contributed to the increase with 12% and currency with 3%.

### Sales & profit bridge

	Orders received		Revenues		Operating profit	
	SEK million,	Δ, %	SEK million,	Δ, %	SEK million,	Margin, %
<b>Q2 2018</b>	<b>2,470</b>		<b>2,452</b>		<b>304</b>	<b>12.4</b>
Organic	-2		+4		+70	+1.9
Currency	+2		+3		+25	+0.6

<b>Total</b>	<b>+14</b>		<b>+19</b>		<b>+125</b>	<b>+2.2</b>
<b>Q2 2019</b>	<b>2,826</b>		<b>2,926</b>		<b>429</b>	<b>14.6</b>

\*Includes operating profit/loss from acquisitions.

### Operating profit and margin

Operating profit increased 41% to SEK 429 million (304), corresponding to a margin of 14.6% (12.4). The margin was positively affected by organic revenue growth, currency and the efficiency actions carried out in rock drilling tools, but diluted by acquisitions.

### Business development

The acquisition of Innovative Mining Products, commonly known as New Concept Mining, was closed on April 2. The company has about 900 employees and had revenues of SEK 645 million in 2018.

In June, an agreement was signed to divest the geotechnical consumables product line. The products consist mainly of large down-the-hole hammers and related drill bits and casing advancement systems. The business had revenues of SEK 275 million in 2018 and has about 40 employees. The transaction is expected to be completed in Q3 2019.

### Innovations

Epiroc Bio chisel paste is supplied with all new hydraulic breakers as from the second quarter. It is used to grease the wear bushings in the breaker, is biodegradable, and prolong working tool life.

## Sustainability development

- A work-related fatal accident occurred in India
- Lost time injury frequency rate decreased
- CO<sub>2</sub> emissions from transport improved

### Sustainability measurements

	2019 Q2	2018 Q2	2018 Full year
Work-related lost time injury frequency rate, LTIFR, 12 months	3.0	4.4	3.4
Sick leave, %, 12 months	2.2	2.1	2.2
MWh energy from operations/Cost of sales, SEK million, 12 months	7.1	7.8	7.6
Transport CO <sub>2</sub> (tonnes)/Cost of sales, SEK million, 12 months	5.2	6.3	5.6

### Lost time injury frequency rate

The number of work-related lost time injuries per million working hours (LTIFR), decreased compared to the 12-month period ending June 30, 2018. Preventive measures and a continued focus on training and activities contributed to the reduction. A work-related fatal accident occurred in India.

Epiroc held the annual Safety Day in April to further emphasize the importance of safety at work and to reinforce the Group's safety and health culture. On the Safety Day, the Group launched the SAFESTART<sup>®</sup> globally. The initiative has the goal to increase each employee's safety awareness.

### Energy and CO<sub>2</sub> emissions

MWh energy from operations/Cost of sales has continued to decrease in the last 12 months, supported by several initiatives to increase energy efficiency.

CO<sub>2</sub> emissions from transport improved compared to the 12-months period ending in June 2018. During 2018 and in the beginning of 2019, actions have been initiated to reduce CO<sub>2</sub> emissions from transportation. Examples of this are combined transport of products, reduction in imports and development of local suppliers substituting imports, and increased pre-planning of orders enabling a higher share of sea shipments instead of air freights.

### Employees

On June 30, 2019, the number of employees was 14,620 (13,572). The number of consultants/external workforce was 1,576 (1,603). For comparable units, the total workforce decreased with 217 from June 30, 2018. Sick leave continued to stay on a low level.

In the quarter, Epiroc's first employee survey was carried out. The response rate was 85% and more than 15,000 comments were given. The survey showed that the employees are engaged and view Epiroc as a great place to work. The survey also showed that there is room for improvement in certain areas.

### January – June 2019 in summary

Orders received in the first half year of 2019 were SEK 20,616 million (20,519), corresponding to an organic decline of 5%. Revenues increased 13% to SEK 20,411 million (18,076), corresponding to 8% organic increase. Acquisitions and structural changes contributed positively to revenues with 2% and currency with 3%.

Operating profit was SEK 4,193 million (3,325) with positive contribution from currency and organic growth. Change in provision for share-based long-term incentive programs was SEK -98 million (-77). The operating margin was 20.5% (18.4). Excluding change in provision for long-term incentive programs, the margin was 21.0% (18.8).

## Auditors' Review Report

### Introduction

We have reviewed the interim report for Epiroc AB for the period January 1 – June 30, 2019. The Board of Directors and the President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with ISA and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

Nacka, July 18, 2019  
Deloitte AB

Thomas Strömberg  
*Authorized Public Accountant*

### Accounting principles

The consolidated financial statements of the Epiroc Group are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by EU. The accounting principles applied in the preparation of this interim report apply to all periods and comply with the accounting principles presented in Epiroc's "Annual and Sustainability Report 2018" in note 1 Significant accounting principles except for the adoption of new standards effective as of January 1, 2019, which comply with the accounting principles presented below. The interim report is prepared in accordance with IAS 34 Interim financial reporting.

#### IFRS 16 Leases

IFRS 16 Leases is effective from January 1, 2019 and replaced the lease standard IAS 17 Leases and related interpretations. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. The changes relate mainly to the accounting treatment of the lessee. IFRS 16 introduces a single accounting model for leases and requires the recognition of substantially all leases in the balance sheet and the separation of depreciation of right-of-use assets from interest of lease liabilities in the income statement.

#### The Epiroc Group as Lessee under IFRS 16

The Epiroc Group as lessee recognizes a right-of-use asset in the balance sheet as well as a lease liability. On commencement date, the lease liability is initially measured at the present value of the unpaid lease payments, discounted using the interest rate implicit in the lease, or if the rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments included in the measurement comprise of fixed payments, variable lease payments that depend on an index or a rate, amounts to be paid under a residual value guarantee and lease payments due to the exercise of any options in the contract, if the Group is reasonably certain to use the option. The lease liability is subsequently measured at amortized cost adjusted for any remeasurement.

The right-of use assets comprise of the initial measurement of the corresponding lease liability with the addition of any lease payments made at or before the commencement day and any initial direct costs. The leased asset is subsequently measured at cost less accumulated depreciation and impairment and adjusted for any remeasurement. The leased asset is depreciated over the lease term on a straight-line basis or over its useful life of the underlying asset if it is assessed to be reasonably certain that the Group will obtain ownership at the end of the lease term. The depreciation starts at the commencement date of the lease. The depreciation is recognized within operating profit and interest expense on the lease liability within net financial items. The right-of-use asset is tested for impairment following the principle described in Epiroc's "Annual and Sustainability Report 2018" in Note 1 under section "Impairment of non-financial assets".

If the lease contract is considered to include a low value asset or has a lease term that is less than 12 months, or includes non-lease components such as cost for maintenance, such payments are recognized as an expense on a straight-line basis over the lease term. The Group has leases of certain office equipment (i.e. personal computers, printing and photocopying machines) that are considered leases of low value.

#### Transition to IFRS 16

The standard has been applied by the Epiroc Group from January 1, 2019, using the modified retrospective approach. Comparative information has therefore not been restated. The Group has chosen the option to set the right-of-use asset equal to the lease liability at transition and the lease liability is calculated based on the incremental borrowing rate (IBR) at transition. The Group has at transition further decided to apply the practical expedient that permits not to reassess whether a contract is, or contains, a lease at the date of initial application. The Group has also applied a practical expedient to exclude leases that ends within 12 months of initial application, and leases for which the underlying asset is of low value. IFRS 16 has not resulted in any changes for the Epiroc Group as lessor compared to the accounting under IAS 17.

At the date of initial application of IFRS 16 the Group recognized a right-of-use asset of SEK 2,158 million within "Other property, plant and equipment" and a corresponding lease liability amounted to SEK 2,153 million, whereof SEK 1,760 million reported as "non-current interest bearing liability" and SEK 393 million as "current interest bearing liability". The transition to IFRS 16 has no impact on the Group's equity. The table below presents the difference between operating lease commitments under IAS 17 at December 31, 2018 and the initial measurement of lease liabilities under IFRS 16 at January 1, 2019:

### Reconciliation of operating lease commitment and lease liabilities as of January 1, 2019:

SEK million	
Operating lease commitment at December 31, 2018 (IAS 17)	1,550
Discounting effect	-77
<b>Operating lease commitment at December 31, 2018 (discounted)</b>	<b>1,473</b>
<b>Adjusted for</b>	
Low-value and short-term leases	-62
Costs attributable to extension option (discounted)	636
<b>Lease liability as a result of initial application of IFRS 16 of previous operating leases at January 1, 2019</b>	<b>2,047</b>
Finance lease liabilities at December 31 2018	106
<b>Total lease liability at January 1, 2019</b>	<b>2,153</b>

The weighted average Incremental borrowing rate (IBR) as of January 1, 2019 was approximately 1.5%. Epiroc Group has established the IBR at the date of transition based on the different contract currencies and lease terms.

Due to the adoption of IFRS 16, the Group's tangible assets and interest-bearing liabilities have increased. The Group's leased properties in Sweden contributes to a large extent to the right-of-use asset and lease liability. There is no material impact on the Groups income statement. The lease expenses for previous operating leases in operating profit have been replaced by depreciation on the right-of-use asset and interest expense on the lease liability, the latter is presented in net financial items. EBITDA has increased after transition to IFRS 16 due to that lease expenses being replaced by depreciation and interest expense. Average capital employed increases while return on capital employed (%) decreases, due to a larger amount of leased assets within the Group. Net debt and the net debt/EBITDA ratio has increased due to additional interest-bearing liabilities.

The timing of cash flows are not impacted by the new standard. However, the amortization portion of Epiroc's lease payment is reported as a financing cash flow instead of operating cash flow. Lease payments for low value and short term leases will continue to be reported as operating cash flows together with interest payments on the lease liability.

In the first half-year 2019, the new accounting standard IFRS 16 impacted EBITDA positive with approximately SEK 208 million (SEK 100 million in the second quarter), net debt increased with SEK 2,037 million (SEK 55 million in the second quarter) and capital employed with SEK 2,020 million (SEK 4 million in the second quarter) compared to accounting under IAS 17. Operating cash flow during the first six months increased with SEK 189 million (SEK 85 million in the second quarter) due to the shift of lease payments from operating activities to financing activities.

#### Accounting principles of the parent company

The interim financial statements of Epiroc AB have been prepared in accordance with the Swedish Annual Accounts Act and the recommendation RFR 2, "Accounting for Legal Entities", issued by the Swedish Financial Reporting Board. The accounting principles used in this interim report are the same as those described in Epiroc's "Annual and Sustainability Report 2018" in Note A1 in the Parent Company accounts. As from 2019, no changed accounting standards and interpretations are considered to have any material effect on the Parent Company's financial statements. The Parent Company will recognize leases in accordance with the exemption rule for IFRS 16 provided in RFR 2, which results in no change compared to previous year (2018).

### Fair value of derivatives and borrowings

The carrying value and fair value of the Group's outstanding derivatives and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives and other loans are based on level 2 in the fair value hierarchy. Compared to 2018, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs or assumptions.

### Condensed segments quarterly

Epiroc has two reporting segments, Equipment & Service and Tools & Attachments. In addition, Epiroc reports common group functions, which includes Payment Solutions, offering financing to customers, Group management and common functions, as well as eliminations. Payment Solutions receives payments from credit arrangements, for example financial leases, which is reported as financial income. Payment Solutions also has a rental fleet generating operating lease payments, which are reported as revenue.
