Epiroc Capital Markets Day: A vital part of a sustainable society

Stockholm, Sweden: Epiroc AB, a leading productivity and sustainability partner for the mining and infrastructure industries, is today hosting a virtual Capital Markets Day (CMD) for institutional investors, analysts and financial media.

The purpose of the 2.5-hour event is to give an update on Epiroc's strategy for profitable growth. Strategic areas such as innovation, aftermarket, operational excellence and sustainability will be covered. The webcast starts at 15:00 CET, with presentations from Helena Hedblom, President and CEO, and the majority of Group Management.

Epiroc reconfirms its financial goals and its most recent outlook statement that demand, both for equipment and aftermarket, is expected to remain high in the near term.

"Today we would like to show that Epiroc is a vital part of a sustainable society and that we drive the change in our industry by taking the lead in automation, digitalization and electrification," says Helena Hedblom, Epiroc's President and CEO. *"Our innovative products and solutions will ensure that our customers can operate in the safest, most sustainable and efficient way possible, and will play a key role in the global ambition to reduce CO₂ emissions."*

Several innovations and examples where Epiroc supports and collaborates with customers in their productivity and sustainability transformation will be highlighted.

The CMD will be conducted in English and webcasted live to beforehand registered participants. The webcast and presentation material will also be available on the homepage after the event. Registrations are done at www.epirocgroup.com/en/cmd2021.
